SY: 2015-2016

Dear Parents, Teachers, and Staff of Waimanalo Elementary and Intermediate School,

The Asbestos Hazards Emergency Response Act (AHERA), enacted in 1986, requires our school to notify parents, faculty and staff of the presence and status of asbestos-containing materials in our school buildings. The law further requires a Management Plan based upon the findings of the initial inspection.

AHERA requires the re-inspection of our schools to identify any new asbestos-containing building materials (ACBM) and to determine if there have been any changes in the condition of existing ACBM. The results of period surveillance indicate there have been no changes in the condition of asbestos-containing materials in our school buildings.

A copy of the inspection report and Asbestos Management Plan is available for your review in our school office or at the Safety and Security Section of the Department of Education. Please call 259-0460 if you need additional information.

Sincerely,

Cherilyn Inouye
Vice Principal
